

L9061 PL 13W Lamp

Important instructions pertaining to risk of fire, electric shock or injury are contained.

WARNING – Lighted lamp is HOT.

To reduce the risk of FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS:

- ~Turn off/unplug and allow lamp to cool before replacing bulb, cleaning or other maintenance.
- ~Do not touch hot/warm bulb at any time.
- ~Do not look directly at lighted bulb.
- ~Keep lamp away from materials that may burn.
- ~Bulb and shade can get HOT! Touch only the switch/plug when turning on.
- ~Use a PL 13 Watt Fluorescent Bulb.
- ~Never tilt.

Assembly Instructions

1. Take the lamp and its components out of the box and place everything on a flat surface.
2. Remove all packing material.
3. Put the lamp pole into the hole of the D clamp, tighten the screw on the lamp arm and unfasten the belt on the lamp arm.
4. Adjust the pole of the lamp to the desired position by adjusting the knob on the arm.
5. Plug in the lamp and turn on the switch.

Bulb Replacement

1. Switch off and unplug the lamp. Allow the bulb to cool completely before replacing.
2. Remove the old bulb and replace it with a new one according to the bulb caution label applied on the shade.

Maintenance

1. Use only a **PL 13 Watt Fluorescent Bulb**.
2. Use only a soft cloth to clean.
3. Do not use any chemical or abrasive cleaners on any part of the lamp.

Important Safety Instructions

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter plug.
